

TERMS OF REFERENCE

GGW Innovative Finance Consultant

Consultancy reference number: CCD/24/C/10

Background

The objective of the United Nations Convention to Combat Desertification (UNCCD) is to combat desertification and land degradation, and to mitigate the effects of drought (DLDD) in affected countries around the world, particularly in Africa, through effective action at all levels. Established in 1994, the UNCCD is the sole legally binding international agreement linking environment and development to sustainable land management.

The Global Mechanism (GM) is an institution of the UNCCD, mandated to assist countries in the mobilization of financial resources from the public and private sector for activities that prevent, control or reverse desertification, land degradation and drought.

The Global Mechanism is currently steering several activities related to the Green Great Wall Initiative, notably a project entitled "Strengthening Coordination and Implementation of the Great Green Wall Initiative", funded by ADA, the Austrian Development Agency.

In order to fully comply with ADA's objectives, for this project, UNCCD shall contribute to the identification of additional financial/technical resources for new GGW projects and activities, utilizing and benefitting from the enhanced M&E and data management system; UNCCD will, in coordination with the PA-GGW continue its global campaign with the view to promote innovative financing and drive investments in the GGW Initiative. This will occur through the organization of donor and investor meetings/outreach activities and participate in relevant investor conferences to identify new investment opportunities.

The Pan-African Agency of the Great Green Wall (PAGGW) is the implementing agency for the Great Green Wall Initiative (GGWI). Its missions include coordinating and monitoring the implementation of GGWI achievements, mobilizing necessary resources in collaboration with member states and partners.

However, institutional constraints at the organizational and technical levels, including financial resource mobilization, coordination of GGWI activities, insufficient monitoring system, operational governance on the ground, lack of visibility of the Initiative, and understanding of its transformative vision have been identified.

The current Terms of Reference (TDRs) relate to the recruitment of a consultant for a duration of eight months. The consultant will be placed at the disposal of UNCCD and the PAGGW within the framework of the Accelerator. Their responsibilities will include contributing to the 2025-2030 resource mobilization strategy for GGWI, ensuring enhanced mobilization results, and strengthened systems (such as monitoring) within PAGGW and around the GGW.

Objective of consultancy

The purpose of this assignment is to support consolidation of updated strategies for resource mobilization for the GGW in parallel with the Pan-African Agency of the Great Green Wall, along with partnerships support.
